INSIGNIA

Brandmarks

Insignia Master Brand Logo Description

The Insignia logo is a refined combination of a strong wordmark and a symbolic icon, designed to convey authority, trust, and strategic leadership within the real estate industry. As the parent brand, Insignia represents the foundation of a diverse real estate portfolio, uniting multiple sub-brands under one cohesive and credible identity.

The icon, formed by two skyscrapers standing side by side, symbolizes strength, balance, and partnership reflecting Insignia’s dual role as both a holding brand and a standalone real estate authority. It represents growth, structure, and the alignment of vision across developments, investments, and services.

Modern in execution with subtle African influences, the logo embodies Insignia’s commitment to long-term value, sustainable growth, and architectural excellence.

The master logo is a refined combination of a wordmark and an icon, designed to communicate authority, trust, and strategic leadership. It reflects Insignia’s role as a unifying force—connecting people, developments, and opportunities across its real estate portfolio.

The icon, formed by two skyscrapers standing side by side, represents strength, balance, and partnership. It symbolizes Insignia’s position as both a parent brand overseeing multiple real estate sub-brands and a standalone market leader, guiding growth with structure and confidence.

With a clean, modern aesthetic and subtle African influences, the logo embodies Insignia’s commitment to long-term value creation, unity, and sustainable growth.

The icon, formed by two vertical skyscrapers connected through proportion and alignment, symbolizes structure, partnership, and strategic balance. It reflects Insignia’s role in uniting developments, investments, and real estate ventures under a single, authoritative ecosystem.

The relationship between the two towers represents coordination and cohesion—the connection between Insignia as the parent brand and its sub-brands, as well as the alignment of vision between stakeholders, communities, and markets.

This architectural symbolism stands for stability, trust, and long-term value, resonating with African principles of collective progress while maintaining a globally refined appeal. It captures Insignia’s commitment to building enduring assets, empowering growth, and shaping sustainable real estate futures.

Logo clear space

The clear space around the logo is to ensure no other graphic element is placed. This space should always be height of the logo in any given application.

Co-branding // Logo

Following the clear space rule, ensure no other brand's logo is place inside the clear space around the Insignia logo.

INSIGNIA

Stacked arrangement

Horizontal arrangement

Logo orientation

When the default horizontal logo application is not feasible, the Insignia logo may be used in a vertical orientation by rotating it anti-clockwise, ensuring the 'I' is positioned at the bottom and the 'A' is positioned at the top.

This alternative placement should be used sparingly and only in constrained layouts where the primary logo configuration cannot be applied, in order to maintain brand consistency and visual authority.

Logo orientation

When the default horizontal logo cannot be applied, the Insignia logo may be rotated anti-clockwise, positioning the “I” at the bottom and the “A” at the top. This alternative orientation should be used sparingly, only in situations where the primary horizontal layout is not feasible, to maintain visual consistency and the brand’s authoritative presence.

The Mark of Distinction

At Insignia, we craft thoughtful brand experiences that are built to endure. From strategy to execution, every detail is intentional — shaping identities that communicate clarity, confidence, and long-term value.

The Mark of Distinction

INSIGNIA

Misuse of logo

The Insignia logo is designed to provide clarity and consistency on all channels. The following are ways that violate the use of the logo:

Do not distort the logo in any way

Do not add a shadow to the logo

Do not change the logo to outline

Do not add any kind of gradient or non-brand colours to logo

Do not rotate any part of the logo

Do not place the logo at any angle other than the approved vertical angle.

Do not use the logo on low contrast or busy background

Do not recreate the logo using a different font

Do not change the logo colour or superimpose an image over the logo.

INSIGNIA

To convey the refined and authoritative energy of the Insignia brand, the selected primary font is Aeonik. Modern and sophisticated, Aeonik reflects Insignia’s role as a leader in real estate, while maintaining clarity and elegance across all applications.

This font is used for all brand communications, both print and digital, primarily for headings, key messages, and expressive copy, ensuring consistency and a strong, premium visual presence across the brand ecosystem.

Secondary font

Authology provides balance and versatility with its clean, approachable design. It complements Insignia’s primary font, Aeonik, by adding warmth, readability, and subtle personality across all communications, reinforcing the brand’s message of clarity, professionalism, and accessibility.

This secondary font is primarily used for subheads, body text, headers, footers, and captions in both print and digital applications, ensuring a cohesive, polished, and consistent visual experience throughout the Insignia brand ecosystem.

Type hierarchy

The copies in a layout must all follow the rule of proportional difference of type size to establish a type hierarchy. This is achieved by first selecting a point size for the body type. Multiplying the body font size by 2, to get your subhead point size, then multiply the subhead by 2 to get your headline point size. The leading for all the type must be plus 10 of the point size.

The headline is by multiplying the subhead by 2.
 $36 \times 2 = 72$ pts
Leading is $72 \text{ pts} + 10 = 82$

The subhead is by multiplying the body by 2.
 $18 \times 2 = 36$ pts
Leading is $36 \text{ pts} + 10 = 46$

You first pick a suitable body point.
This is 18 pts
Leading is $18 \text{ pts} + 10 = 28$

A considered approach to
property and brand excellence

Insignia operates at the intersection of vision, structure, and intent. Every decision is guided by a long-term perspective — one that values clarity, balance, and enduring relevance over quick wins. Our developments and brand expressions are shaped with care, combining thoughtful design, strategic planning, and attention to detail. From concept to completion, each element is aligned to create experiences that feel purposeful and refined. This is not about scale alone, but significance. Insignia exists to build identities and spaces that communicate confidence, inspire trust, and quietly set a higher standard.

System fallback

In emails and other technical situations where it is not possible to use Aeonik or Authology, use one of the following fallback typefaces: Simple Sans-Serif or Arial.

Usage guidelines:

- Simple Sans-Serif should be used for all external-facing communications, including the website, documents, presentations, brand campaigns, social media, and other professionally designed materials.
- Arial is reserved for internal communications only and should not appear in any branded or public-facing materials.

This ensures consistency, professionalism, and a cohesive visual identity across all Insignia touchpoints.

Insignia's primary colors, Ubuntu Crimson and Insignia Sunrise, are applied in structured, balanced patterns to establish hierarchy and visual focus. Crimson is used for key elements, headlines, and dominant brand features, while Sunrise adds warmth, highlights, and energy. These two colors can be paired in blocks, gradients, or layered shapes to create contrast, depth, and a premium visual rhythm. Patterns should be applied consistently and sparingly, ensuring the brand remains cohesive, authoritative, and visually striking.

The following pattern is only used for letterhead and envelop communication. Do not use this for any application except stated here.

Pattern // Use case

Insignia patterns, based on The Pinnacles icon and architectural geometry, are applied to create visual interest and hierarchy without overpowering the brand. Primary color patterns (Ubuntu Crimson and Insignia Sunrise) are used for key brand elements, hero sections, banners, and feature highlights, establishing authority and focus. Accent overlays (Sea, Sky, Sand) can support secondary areas, backgrounds, and subtle details. Patterns should be consistent, scalable, and applied sparingly, ensuring a premium, cohesive aesthetic across digital, print, presentations, and environmental branding.

Imagery

INSIGNIA

INSIGNIA

For Insignia, imagery plays a crucial role in communicating quality, trust, and aspiration in real estate. Visuals should showcase homes, buildings, and communities that reflect style, modernity, and inclusivity, appealing to diverse clients and investors. Photography should highlight architectural design, premium living spaces, and vibrant neighborhoods, while also conveying human connection — families, residents, and communities interacting naturally within these spaces. Such imagery reinforces Insignia's commitment to creating spaces where everyone feels at home, while projecting a professional, refined, and aspirational brand identity.

people communicates empowerment, trust, and connection within the real estate ecosystem. Visuals should feature residents, homeowners, agents, and communities engaging naturally — collaborating, exploring spaces, or enjoying their homes. These images highlight diversity in age, lifestyle, and background, reinforcing that Insignia creates spaces and opportunities where everyone feels valued and included. Such imagery strengthens the brand’s narrative of growth, aspiration, and positive impact, showing that Insignia is committed to uplifting individuals, families, and communities through premium real estate experiences.

Professionalism is key to building a trusted brand, and the right imagery helps communicate this core value. Images that depict individuals working with focus, precision, and collaboration in clean, organized environments convey a sense of reliability and expertise.

interior imagery conveys innovation, quality, and forward-thinking design in real estate spaces. Visuals should highlight modern, thoughtfully designed interiors — from open living areas and functional layouts to cutting-edge finishes and architectural details. Images can feature residents, designers, or agents interacting with the space, emphasizing creativity, comfort, and adaptability. Such imagery communicates Insignia's commitment to progressive, premium living environments, showcasing how spaces are crafted to inspire, evolve, and meet the needs of modern lifestyles.

Repair and maintenance emphasizes reliability, expertise, and attention to detail. Visuals should showcase skilled professionals maintaining, upgrading, or repairing homes and buildings, highlighting quality craftsmanship and operational excellence. At the same time, the imagery can reflect community and heritage, showing diverse teams working together and reinforcing Insignia's commitment to trusted, long-lasting spaces that blend innovation with care.

Business-related imagery reflects simplicity, clarity, and professional connection. Visuals should feature minimalist, uncluttered spaces with clean lines, open layouts, and well-designed work environments. Images can highlight teams, clients, or partners interacting naturally, emphasizing collaboration, professionalism, and a sense of trust. This style reinforces Insignia's commitment to premium, efficient, and thoughtfully designed real estate solutions for business and commercial spaces.
